

Migrate to HELIOS IQ in six days!

Change now to the next generation ad serving technology – with HELIOS IQ by ADTECH you gain more innovation, efficiency and security for your online advertisement. Get even more successful in digital marketing with HELIOS IQ.

You are using an ad server as an in-house or ASP system and would like to profit even more from the clear growth in online advertising. Have you already thought about changing to an optimum solution that takes you one step ahead in the competition? HELIOS IQ gives you unique inventory management, optimisation and trafficking features which save you time and efforts. Instantly.

Did you ever

- **book a rich-media line item in less a minute?**
- **get the campaign live instantly?**
- **make changes to campaigns without delays?**
- **get detailed inventory forecast within the campaign booking process – instantly?**
- **have a campaign that automatically optimizes delivery every minute to reach its goal?**
- **avoid under- or over-deliveries without manual adjustments?**
- **book a flash-banner with a hard-coded link in 20 sec – and it works?**
- **use an ad server with 100% delivery uptime throughout a year?**

If your answer is “no” to any of these questions you should get in contact with us and learn more about the fine arts of German ad server engineering. As major brands including AOL, Kelly Search / RBI, Sky TV and more than 200 other customers already did.

ADTECH offers you now for a limited time to migrate to its state-of-the-art ad serving solution HELIOS IQ - with a **free migration** and with **competitive pricing** - including the API to your other partners including Solbright, 7d, Fivia or Revenue Science. *

Simply contact our CSO Nils Winkler personally at +49-177-2336377 or winkler@adtech.info. He will make sure you will receive the smoothest, easiest migration you have ever seen and which will be followed by the best ad serving experience you ever had. **Your ads will love it.**

* Restrictions may apply. The offer is only valid throughout Europe.
